Experience

MERN Developer — Digicrowd Solutions

October 2024 – Present | Lucknow, India

- **Developed** and deployed full-stack applications using **MERN and Next.js**, ensuring optimal performance and responsive UI across all devices.
- **Implemented** design enhancements and UI improvements on the company's **Laravel-based website**, improving visual consistency and modern user experience.
- **Built** a complete **Grocery Store Management System** on **Electron.js** integrating sales, purchase, and inventory modules with modular access controls.
- **Collaborated** with cross-functional teams to troubleshoot issues, enhance feature sets, and ensure smooth end-to-end delivery.

Education

- **Bachelor of Science (Computer Science)**
University of Lucknow, Lucknow - 2017-20 (73% overall)
- **Master of Arts (Sociology)**
University of Lucknow, Lucknow - 2020-22 (7.14 CGPA)
- **Master of Computer Applications**
University of Lucknow, Lucknow - 2022-2024 (9.52 CGPA)

Projects

• Grocery Store CRM

A modern **Electron.js** + **Node.js** based solution for grocery store management.

- Developed a multi-faceted desktop app to handle sales, purchase, and inventory workflows.
- Designed permission-based role control for employees and managers.
- Built reusable components and integrated real-time data updates using REST APIs.

• Influencer Aggregator Platform

An influencer marketing platform for managing social media campaigns.

- Engineered backend logic for campaign creation, tracking, and payment flow.
- Integrated **payment gateways** and implemented **secure authentication** across dashboards.
- Developed multiple role-specific dashboards (Super Admin, Influencer, Brand).

• Link India Now

A **Next.js** web platform for a local business directory.

- Created a fully responsive UI with a modern design and **admin control panel**.
- Completed onboarding setup with management panel.
- A base feature to promote listings to incorporate subscription based model later.
